Great Opportunity for Engineering Colleges

3 compelling reasons!

Window to Industry

- Interaction with practicing engineers and managers
- Creating facilities relevant to industry
- Industry projects

Student Placement

- Exposure to industry
- Projects coached by practicing engineers
- Skill development for industrial problem solving

Faculty Development

- Learning with practicing engineers and experts
- Capability to handle industrial projects and research
- Motivation to develop students and institute

Unique opportunity help students and connect with Industry!

Management Commitment

At least one review per semester

Facilities

Lecture halls – with audio-visual presentation equipment

CAD lab – with networking and server

Materials lab

Metrology lab

Fabrication workshop with basic machines, welding and fitting

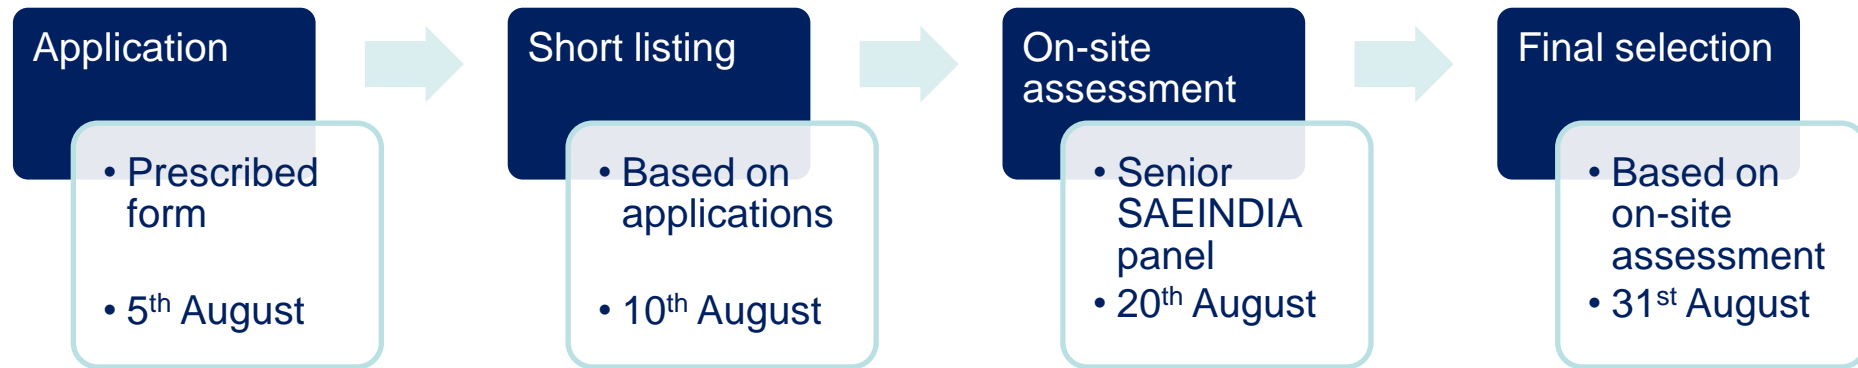

Hostel facilities – semester vacation courses are fully residential
(also to accommodate other college students, a small number)

Transport facilities to support off-site meetings and workshops

Faculty:

Allocate two teaching faculty members per batch as lead
instructors supported by staff to attend the lab requirements

Basically management commitment!

Assessment results will be shared with colleges to help development

4 step transparent process!

Let us work together to achieve

India Vision 2020
